ELEPHANTS ON THE EDGE: WHAT ANIMALS TEACH US ABOUT HUMANITY (HARDBACK)**DOWNLOAD**

Yale University Press, United States, 2009. Hardback. Condition: New. Language: English . Brand New Book. Drawing on accounts from India to Africa and California to Tennessee, and on research in neuroscience, psychology, and animal behaviour, G. A. Bradshaw explores the minds, emotions, and lives of elephants. Wars, starvation, mass culls, poaching, and habitat loss have reduced elephant numbers from more than ten million to a few hundred thousand, leaving orphans bereft of the elders who would normally mentor them. As a consequence, traumatized elephants have become aggressive against people, other animals, and even one another; their behaviour is comparable to that of humans who have experienced genocide, other types of violence, and social collapse. By exploring the elephant mind and experience in the wild and in captivity, Bradshaw bears witness to the breakdown of ancient elephant cultures. All is not lost. People are working to save elephants by rescuing orphaned infants and rehabilitating adult zoo and circus elephants, using the same principles psychologists apply in treating humans who have survived trauma. Bradshaw urges us to support these and other models of elephant recovery and to solve pressing social and environmental crises affecting all animals, human or not.
