THE AGRICULTURAL SITUATION IN EAST GERMANY (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Agricultural Situation in East Germany The principal crops grown are wheat, rye, oats, barley, potatoes, hops, and sugar beets. The number of livestock (hogs, cattle, and sheep) have been maintained at a level above prewar, but the production of meat and slaughter fats continues low due to lower livestock slaughter weights. Official East German statistics show annual increases in production of all types of agricultural commodities. Although the Central Statistical Administration of East Germany has stated that their crop production statistics are reported on a barn yield basis (as compared to the biological yield method which was in general use prior to their statistics are generally overstated and suggest that some East German farm managers are reporting an estimated yield rather than actual barn harvest. The reader should also bear in mind the political and economic factors which influence the reporting of an East German farmer. He may be compelled to show annual improvement in his farm's production even if such gains are not there All data cited in this bulletin are from publications of the government of East Germany. Where other sources indicate a discrepancy, U.S. Department of Agriculture (USDA) estimates are given. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
