It describes recent market dynamics and gives a detailed overview of the globalization of the information and communication technology (ICT) sector. It also analyzes the increasingly important software sector and examines the growth in electronic commerce as well as some of the barriers to its expansion.This volume also looks at developments in the provision and use of ICT skills, mismatches between supply and demand, and potential remedies. Finally, it provides an overview of IT policies in OECD countries, particularly those aimed at expanding the supply and use of ICT skills and overcoming the digital divide.
