

The Theory of Natural Systems: Genetic Immunity and the Cure of Cancer and AIDS

Filesize: 1.97 MB

Reviews

A really wonderful book with lucid and perfect reasons. This can be for all who statte there was not a worth reading through. You are going to like how the author write this book.
(Dr. Grady Jacobi DDS)

THE THEORY OF NATURAL SYSTEMS: GENETIC IMMUNITY AND THE CURE OF CANCER AND AIDS

AuthorHouse. Paperback. Condition: New. 396 pages. Dimensions: 9.1in. x 6.0in. x 0.9in. The theory of natural systems is unique in that: It is the only theory that unifies all physical reality postulating that elemental reality and natural systems have the essential capability to decide and to make meaning out of information. Artificial systems do not have such faculties. It encompasses physical and biological energies into control-energies based in the quantitative and qualitative content of information. It sees universal evolution -from elemental matter to systems- due to a spontaneous drive to associate essential to all physical reality. It ends the obsolete notions of body-soul duality, chance as cause of action, laws of nature, etc. , unchallenged since the beginning of the 20th century. It is the theoretical foundation of Clinical Biofeedback widely practiced today. Voluntary control of one brain cell out of the 10 billion cells in the brain has been successfully achieved by Clinical Biofeedback. Clinical Genetic Biofeedback, the voluntary control of the genetic machinery, is the next medical step that this theory proposes and the only possible cure of cancer and AIDS. By Clinical Genetic Biofeedback erroneous DNA can be corrected or re-programmed to stimulate immune reactions. Drugs and present medical therapies have no other theoretical capabilities than to cripple or amputate the DNAs of the cancer and AIDS patient rather than to cure them. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
