Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. -The Basic Math of Algebra- - Book 3 of Doodles Do Algebra by Kirsten West, PhD. How Much of Algebra Is Covered In This Book? This third book in the Doodles Do Algebra series teaches your child how to evaluate equations followed by a comprehensive tour through addition, subtraction, multiplication, and division of monomials and polynomials, including long division of polynomials. This leads the way towards the next books in the series that cover factoring and fractions, followed by learning to solve simple equations, and more. Do I Have To Start With The First Book In The Series, Or Can I Pick And Choose Subjects? The book series is designed as a complete curriculum and also as a supplement so that if your child is having difficulties with a specific area of Algebra, you can use just the relevant Doodles Do Algebra book. What Is In This Book? Evaluating Equations Writing Equations Algebraic Addition (of both positive and negative terms) Algebraic Subtraction Distributive Property of Multiplication Commutative Property of Multiplication Multiplication of both monomials and polynomials Division of monomials Long Division of Polynomials This book includes the student work pages, teacher s notes, and answer key. Unlike most curricula for homeschooling that seems to include teacher s notes as an afterthought, this series is focused heavily on notes to the teacher. We provide alternatives for teaching each lesson so that you can adjust the material to fit your child. No matter how your child learns and understands math best, we have a suggestion. The Approach Answers The Question We All Hear: -Why Do I Have To Learn This?- All of us, at one time or another, have asked, -But...
