The Study of the Combining Property of Calcium Oxide with Silica, Magnesium, Aluminium and Other Compounds by Means of Steam at Various Pressures and Temperatures: Thesis (Classic Reprint) (Paperback)

By Alexander William Beemer

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Study of the Combining Property of Calcium Oxide With Silica, Magnesium, Aluminium and Other Compounds by Means of Steam at Various Pressures and Temperatures: Thesis A great amount of work has been done at the University of Illinois on the subject of the formation of artificial silicates at steam temperatures. The work was started in the fall of 1905 by Mr. C. F. Hagedorn, who began a linefiresearch in an attempt to make silica brick, using as a basis, lime and the finely divided silica from Southern Illinois. The following year Mr. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
