

## Part II: Assessing the Impact of September 11th, 2001, on Children, Youth, and Parents in the United States: Lessons from Applied Developmental Science: A Special Issue of Applied Developmental Science (Paperback)

By -

Taylor Francis Inc, United States, 2004. Paperback. Condition: New. Language: English . Brand New Book. These two special issues of Applied Developmental Science include eight major studies of the impacts of the September 11th, 2001, terrorist attacks on children, youth, and their parents. Issue 1 includes a report of the impact of September 11th on New York City youth in comparison with that of everyday violence, as well as three studies which demonstrate the impact of the attacks on the metal health and coping strategies of adolescents throughout the country, despite being physically distant from the event. Issue 2 includes a study of separation anxiety in school age children in New York City following the attacks, the results from two national surveys of parents roles in helping children respond to or process the attacks, and a study of the impact of such a distant trauma on rural youth.

### Reviews

*An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.*

-- Prof. Arlie Bogan

*It in a single of the best book. This is for those who statte there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- Dr. Barney Robel Jr.
