FOREIGN CROPS AND MARKETS, VOL. 48: JANUARY 10, 1944 (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Foreign Crops and Markets, Vol. 48: January 10, 1944 The gross value of the principal field crops produced in Canada in 1943 is tentatively placed at million dollars (canadian currency). According to a report from the Dominion Bureau of Statistics at Ottawa. At that figure the value would be about 8 percent below the high value of million for the 1942 crop but still considerably above average. The decline from the preceding year was tributed largely to the sharp reduction in the wheat crop in the Prairie Provinces and a considerable reduction in all grain crops in Ontario and Quebec., These reductions. However. Were partially offset by the higher prices paid to producers. Estimates represent gross value of farm production. Not actual cash income received from sales. The values per unit assigned to each crop are the average of prices received by farmers during the first 4 months of the new crop year (august November) and are subject to revision on the basis of future price developments. Prices for the country as a Whole averaged higher for all field crops except hay and clover. For which prices were slightly lower than in 1942.
