Hiking is one of Jaden s favorite pastimes - especially when it s with the group of friends he s known all his life. And this annual hike to the Shadow Mountains is the best hike of all. But this year, something s wrong. It starts with the blood-curdling noise that cuts through the mountain stillness. A noise that none of his friends apparently hear. Worse, is the feeling that he s been waiting all his life to hear it. And then he sees it: a creature so horrendous is makes his nightmares laughable. Malice emanates from its very core. But none of his friends can see the monster either. Why is he the only one who can see or hear it? Is he really suffering from altitude sickness like his friends claim? Or is it truly there and will it annihilate him before his friends can see it to stop it?.
