Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Modernization is a critical component of the current transformation effort within the Department of Defense (DoD) Effective and efficient modernization planning will provide for the improved allocation of limited funding. The Air Force currently conducts capabilities based modernization planning to identify shortfalls. Air Combat Command (ACC) utilizes multi- objective decision analysis (MODA) techniques to support the modernization planning process (MPP). A MODA model has been created to identify and quantify capability shortfalls across a diverse range of mission areas. Groups of subject matter experts are utilized to provide model inputs improving the usefulness and credibility of the model. The intent of this research effort is to document the ACC modernization model and provide insight into their use of groups.
