HIGH TEMPERATURE RESISTANT FLY ASH BASED GEOPOLYMER COMPOSITES

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Physical and Mechanical Behavior | Fly ash based geopolymeric binders have potential for a wide range of high temperature applications and it is receiving more attention due to their economic and environmental advantages. This kind of Geopolymeric materials possess intrinsic fire resistance due to their rigid 3-D aluminosilicate structure. Geopolymer specimens remains dimensionally stable at high temperature and provides good compressive strength also. The percentage of Na₂O and SiO₂/Na₂O ratio affect development...
