# THE MEDIEVAL WARM PERIOD

Book Condition: New. Publisher/Verlag: Springer Netherlands | The Medieval Warm Period and the Little Ice Age are widely considered to have been the major features of the Earth's climate over the past 1000 years. In this volume the issue of whether there really was a Medieval Warm Period, and if so, where and when, is addressed. The types of evidence examined include historical documents, tree rings, ice cores, glacial-geological records, borehole temperature, paleoecological data and records of solar receipts inferred...

## Reviews

*I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Dessie Witting**

*Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.*
