One minute your planning vacation, the next minute your planning surgeries and treatments to try to kill a disease before it can kill you. Then, after weeks of despair, you realize what your going through is a blessing. What's happening to you physically doesn't have to be what is happening to you spiritually. Just because your physical body is sick and weak doesn't mean your spiritual body can't thrive. It can and it will! You may not be going through cancer. For you it could be abuse, addiction, divorce, or depression etc. There are many obstacles in life and none are less important than the other. The most important part of our battle is not the battle itself but instead how we fight that battle and what God can do through us during our battle. The contents of this book share a personal story of a breast cancer journey and how God used this journey for a growing season of inspiration and ho.
