They hoped to find a place they could call home, as well as an outlet for their talents as schoolteacher and doctor. It seemed like a good idea at the time, until . . . Until they experienced the climateviolent storms spawned over the Atlantic, searing heat, air tainted by swamp gasses, cockroaches, bedbugs, swarming mosquitoes, and no-see-ums that left nasty bites in their wake. Until they met the slaves themselvesfull of fear and resentment of white people caused by centuries of cruelty, slaves who had never seen the outside world, slaves whose superstitions included breath-sucking night hags, evil graybeards living in local trees, and unfree spirits rolling down the roads at night in balls of fire. Until the dedication of the missionaries found itself tested by lack of food, furniture, medicine, and the bare necessities of life. Until the unity of the abolitionist effort fell apart under the strains of religious differences and unrecognized prejudices. And until the combination of battle wounds and a raging smallpox epidemic made death their constant companion.
