

Processed Reality: Pitfalls of Perception and the Cosmic Mind (Paperback)

By Peter Fritz Walter

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Processed Reality: Pitfalls of Perception and the Cosmic Mind (Scholarly Articles, Vol. 21), 2017, provides a systematic elaboration of all possible distortions of the direct perception of reality, and the various factors or pitfalls that bring about this distortion. Among them are factors that are related to the nature of the memory matrix, but also outside factors such as spiritual, ideological and emotional pitfalls. The perhaps most important part of the study is the chapter on The Myths of Worldwide Democracy where the author unveils one by one the current myths of postmodern international consumer culture. These myths form the underlying basis of the masses credo in a new form of pseudo-spiritual salvation that is cunningly weaved around a prosperity vocabulary, quick wealth formulas, the promise of the beneficial actions of multinational corporations and worldwide communication, and last not least the pretended liberalism and protective thinking in the education of children. The essay reveals by and by what is behind the beautiful facade: the hard reality of lies, systematic manipulation and political cover-up, stringent emotional and sexual misery of our youth,...
