paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 272 Publisher: Machinery Industry Pub. Date :2008-10-01 version 1. Modern manufacturing system is composed of a number of manufacturing theory. manufacturing technology. manufacturing processes. manufacturing equipment. manufacturing resources and organizational systems composed of an organic whole. related to mechanical engineering. computer and microelectronics engineering. information engineering. control engineering. industrial engineering. management engineering and other fields of knowledge and technology. Book of theory and application of systems engineering methods. systematic introduction to manufacturing systems analysis. modeling. design. management and information integration theory and methods. The main contents of the book includes an overview of manufacturing systems engineering. modeling and simulation of manufacturing systems. manufacturing systems design and design theory. manufacturing systems operation and management. system design and manufacturing process optimization. manufacturing process control system. manufacture and integration of information systems technology and manufacturing systems development and trends. This book can be used as mechanical engineering. industrial engineering. management and manufacturing engineering and related disciplines and graduate textbooks and reference books. but also as a manufacturing engineering and technical personnel. technical books. Contents: Preface Chapter Overview Section manufacturing systems engineering and systems engineering systems and manufacturing systems architecture Section III Chapter manufacturing systems engineering modeling and simulation of manufacturing systems modeling techniques outlined in Section II Section III queuing model IDEF0 functional model of manufacturing systems modeling manufacturing systems information model IDEF1x fourth method of section V of the Petri net modeling of manufacturing systems simulation model VI of Chapter III of manufacturing system design methodology and design theory section Section II outlines the major process manufacturing system design and modern manufacturing systems Section IV Design Theory of Inventive Problem Solving Chapter V axiomatic design and operation of manufacturing systems...
