DIALECTICOMA DREAMING (PAPERBACK)

Lulu.com, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Dialecticoma Dreaming is a journey into the imagination of dreams and philosophical minefields. I am often asked the question, where does that wild imagination of yours come from? It usually follows my recounting of a curious story of a grand or mysterious adventure on earth or in outer space, of strange happenings, or of events of incredible horror. My response to the question is almost always the same - I had this really weird dream last night . For as long as I can remember, my nights (and days) have been filled with a landscape of idiosyncratic symbol-filled stories. These are the tangents of life in my mind. This book pulls together a small number of short stories that have been inspired by my dreams.
