Delacorte Press, United States, 1996. Hardback. Condition: New. New. Language: English . Brand New Book. He would have to find some way to protect himself, some weapon. The fire worked well when it was burning, but it had burned down. His hatchet and knife would have done nothing more than make the bear really angry -- something he did not like to think about -- and his bow was good only for smaller game. He had nver tried to shoot anything bigger than a foolbird or rabbit with it and doubted that the bow would push the arrow deep enough to do anything but -- again -- make the bear really made. He bundled in his bag that night, the end of the two weeks of warm weather. He kept putting wood on the fire, half afraid the bear would come back. All the while he tried to think of a solution. But in reality, the bear was not his primary adversary. Nor was the wolf, nor any animal. Brian had become his own worst enemy because in all the business of hunting, fishing and surviving he had forgotten the primary rule: Always, always pay attention to what was happening. Everything in nature means something and he had missed the warnings that summer was ending, had in many ways already ended, and what was coming would be the most dangerous thing he had faced since the plane crashed.
