Reviews

It is one of the best books. Indeed, it really is playful, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

NEURAL NETWORKS EDUCATION: THE ART OF LEARNING

Createspace, United States, 2013. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is writing in an unconventional format, it is more like a slide presentation than a book. It is designed to be as simple as possible so that almost every everyone can read it. This book has 15 sections. It starts with the common sense on education and moves on to the neural network operation. The art of learning, associative, cognitive, and creative learning were stated and defined. Learning simplicity, information content as related to neural network learning was discussed. We also discussed neural plasticity and adaptability in smarter neural network. If we know our human brain s basic abilities and limitation then a better educational method can be implemented.
