## What the Heavens Declare: Science in the Light of Creation (Paperback)

By Lydia Jaeger

Wipf Stock Publishers, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Synopsis: In her latest book, What the Heavens Declare, Lydia Jaeger provides a detailed analysis of the role of the theistic doctrine of creation in the rise of modern science, with a particular focus on the natural order. As the author explains, despite the common use of the expression laws of nature by both scientists and laymen, there is a long-standing tradition of philosophical debate about, and even refusal of, the notion that laws of nature might exist independently of a divine or human mind. This work attempts to account for natural order in harmony with the religious worldview that significantly contributed to the original context in which modern science began: the world seen as the creation of the triune God.

Endorsements: Readers of Lydia Jaeger s arresting book may at first be surprised to find favorable references to creationism and creationists, terms that so often connote anti-evolutionary rhetoric and religious fundamentalism. But they should not be deceived. Her object is not to defend populist religious movements but to reinstate a sophisticated theology of creation having distinguished precedents within Christian tradition,...
