RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 48 pages. Original publisher: Washington, D. C. : Smithsonian Institution Scholarly Press, 2011. OCLC Number: (OCoLC)724071416 Subject: Aulacigaster -- Classification. Excerpt: . . . n u m b e r 3 3 3 Species descriptions are composite, including information were included. Characters were coded for the analysis as on the holotype and other conspecific specimens. Char-either binary ( 17 characters ) or qualitative multistate ( 7 acters used to characterize the genus and species groups characters ). are not repeated in the species descriptions. To generate Analyses were done by using PAuP 4. 0 ( Swofford, such inclusive descriptions, we wrote a separate tonath 2002 ). The matrix was initially analyzed with a branch-DELTA file for the diagnosis of the genus Aulacigaster and and-bound search, with all characters unordered and species groups, and a tonath DELTA file for each of the six equally weighted. Following initial parsimony analysis, species groups. Species diagnostic descriptions were gener-successive weighting ( Farris, 1969 ) was applied by using ated with the aid of Intkey ( Dallwitz, 1980; Dallwitz et al. , Farris ( 1989 ) rescaled consistency index, an approach 1993...

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Ally Reichel**

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*
