State University of New York Press, United States, 1991. Paperback. Condition: New. New. Language: English . Brand New Book. This book fills a significant gap in current process scholarship by providing a detailed exposition of Whitehead s and Hartshorne s social and political writings, reconstructing their ideological commitments in depth, and placing them in their historical context. It focuses on four areas of inquiry: the individual and society; the ideals of freedom, equality, and democracy; the use of coercive force within and between societies; and the theory of social progress. As each feature of their political though is examined, Morris shows how Whitehead s and Hartshorne s political commitments are reflected in their metaphysical principles.
