CONSTRUCTION ELECTRICIAN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 191 Publisher: China Environmental Science Press Pub. Date :2008-11-1. In order to better meet the needs of the construction industry, vocational training, according to electrical national occupational standards and the actual situation of the construction industry, in the emphasis on basic knowledge and practical context, to guide electrical field operation, so that in a relatively short period of time electrician, master electrician technology as soon as possible to understand the construction industry, construction related to existing norms and knowledge. Contents: Chapter basics of an electrical construction, electrical engineering terminology commonly used in two common electrical engineering symbols 1. Graphic symbols 2. Text symbols 3. Loop label three conductive material 1. Wire 2. Cable 3. Mother-row four, five insulation materials, electrical appliances and use of a common, Use common tools and 2 used machinery and electrical measurements using the second chapter one meter 1. DC ammeter 2. AC ammeter Second, the voltage in Table 1. DC voltage wiring methods in Table 2. AC voltage wiring methods in Table III multimeter 1. Works 2. Structure 3. Use four, insulation resistance in Table 1. Works 2. Structure 3. 4 preparation before measurement. Chapter III of the building power measurement step one, the power supply system 1. Load rating and the requirements for power supply 2. Power requirements of two frequency and voltage, power distribution system 1. The role of substation 2. Variable distribution of the type 3. Substation wiring 4. Main wiring of electrical equipment commonly used in three construction supply 1. Indoor distribution line 2. Low-voltage power distribution equipment 3. Chapter selection and laying of cable to install a line, power distribution cabinets, control cabinets and distribution boards installed...
