Perhaps this is a necessity for the world in which we live in, but how many of us think of the reasons behind right and wrong? How many of us care to, or dare to, think of alternatives for what is perceived to be good? I hope many of us do, and that is why this book was written. Those who care and dare thinking about the pursuit of what is right differently, especially students and the new generation, need to know about what has been thought before them. That, dear readers, is the main reason for and the general description of the content of this book.
