Createspace Independent Publishing Platform, 2012. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This book traces the nature of human existence from the Pre-Axial Age (Visions of Being)-to-the Post-Human Era (Versions of Knowing). Two impulses are identified, natural organic based on sensing, feeling, seeing being, techne truth based on believing, thinking, having, knowing. Three major obsessions are identified, the axial sensibility focus on living in but not being of this world, the ego-identity, the individual as a separate entity, and the technological imperative that everything, including human life- existence, has a conceptual, technical and rational base discovered and known in a pure thought context, beyond nature earth and outside of human experience. The book focuses on the primary Question of Meta-Physics - What is being human reality? and offers antidotes for the abstract-artificial disease of teknosis the state of being that eliminates the natural-organic and human experience. The fundamental difference in the Pre-Axial age and the New Singularity or post-human era is that the old, oral and intuitive-spiritual primitives natives saw felt nature as a Thou being- divine and sacred, but in the Post-Human era, nature is thought to be an It to be known in an abstract-artificial way. This new reality is hardly related to the question of being-human reality which is a sensing, feeling, seeing, and being real experience. This is not a part of the symbiotic relationship of human and ultra-computer. Some antidotes are prescribed to help bring the two impulses back into balance harmony to restore the inherent organic-natural connectedness of the old symbiosis of human, nature, earth, mind, spirit, and experience which was the basis of being human reality, that is, a human being, being humanly connected to the organic- natural impulse of mindfully living here and now in this...
