Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The U.S. Geological Survey (USGS) is scanning, cataloging and georeferencing all scales and all editions of approximately 200,000 topographic maps published by the USGS since the inception of the topographic mapping program in 1884. This effort will provide a comprehensive digital repository of USGS topographic maps that are easily discovered, browsed, and downloaded by the public at no cost. Historical maps are an important national resource because they provide the long-term record and documentation of the natural, physical, and cultural landscape. This report provides...
