

Liming the Soil (Classic Reprint) (Paperback)

By M a Bachtell

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Liming the Soil When a soil contains a relatively large amount of iron and aluminum and a relatively small amount of lime it usually happens that the phosphoric acid of the soil is locked up or held in combination with the first named elements, which is an undesirable condition. Liming the soil tends to cause the iron and aluminum to give up the phosphoric acid, which is then taken over by the lime. Combined with lime the phosphoric acid is in a better form for the nourishment of the plant. Thus, it may be seen that although lime contains no phosphoric acid, its application may give very much the same results as would be secured by a light application of a fertilizer which does contain it. The potash of the soil is made more available in a similar manner. Nature has been wise in locking up the potash in rather unavailable forms; otherwise, many men would not hesitate to use it rapidly and thus actually deplete the fertility of their farms. These forms of potash are so unavailable that...

Reviews

A fresh e-book with a brand new perspective. This is certainly for anyone who states that there had not been a really worth reading. I am just happy to explain how this is the very best publication I have gone through in my individual lifestyle and may be the best pdf for ever.

-- Margaret Roob

The very best publication I possibly study. This is certainly for anyone who states there was not a worth looking at. I am just very happy to tell you that this is basically the best pdf I actually have studied inside my individual life and could be the very best pdf for possibly.

-- Darlene Blick
