Traditional financial wisdom recommends you save money and invest for the long term - in other words, park your money. My rich dad s advice was not to park your money, but rather to increase the speed of your money. Millions of people lost trillions of dollars when the markets crashed. Why? Because they simply followed their financial planner s advice and parked their money in their advisor s accounts. We all know that markets go up and markets come down. Before the next crash takes your money again, find out how you can keep your money moving, rather than parked in someone else s account. Robert T. Kiyosaki Your Financial Advisor Does Not Want You To Listen To This Audiobook! Are you tired of the same old advice of save money, invest for the long term, and diversify ? Do you know that your financial planner s company makes money even when you lose money? Do you want to learn how and why professional investors increase the velocity of their money, rather than park it?.
