Forgotten Books, United States, 2015. Paperback. Book Condition: New. 224 x 157 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Epicurus This little volume is, as its title proclaims, a brief study of the thought and temperament of a remarkable man, not the history of a scientific school. The band of comrades who gathered round Epicurus in his Garden were held together not so much by a common intellectual interest in the pursuit of truth as by the ties of personal affection among themselves and personal devotion to a master whom they regarded more as a Redeemer from the ills of life than as a mere thinker. That the feelings of the Epicurean society of a later date were of the same kind is amply proved by the tone of the poem of Lucretius. Atomism as a scientific hypothesis owes nothing to Epicurus or to any of his followers; he found it already in existence, and every innovation which he made upon its existing form was, from the scientific point of view, a change for the worse. As a man of science, his place is with the circle-squarers and the earth-flatteners. This, together with the fact that a volume on ancient Atomism is announced to appear in due time in the present series, will explain why I have said no more about the really scientific Atomism of the fifth century B.C. than was absolutely necessary to place the indifference of Epicurus and his followers to science in the proper light.
