Reviews

Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).
(Pasquale Larkin I)

ICT BASED DEVELOPMENT OF MARGINAL COMMUNITIES

LAP Lambert Acad. Publ. Nov 2009, 2009. Taschenbuch. Book Condition: Neu. 220x150x13 mm. Neuware - Substantial resources are nowadays being devoted to the expansion of ICTs to leverage socio-cultural, political and economic change in many developing countries. However, most of these efforts reflect distributive injustices as rural majority populations remain underserved. Moreover, these efforts are characteristic of infrastructural expansionism at the expense of content and usage capacity development. In this book, the author scrutinizes a grassroots ICT initiative (community Multimedia Centre model) in a rural community in Uganda. The book starts with a micro- examination of the model s structures, processes and outcomes after which the study broadens into separate analyses of the model s pragmatism in empowering women and engaging youth. The impact assessment indicates not only the success factors, but also the importance of a schrewd policy commitment that goes beyond infrastructural access to incorporate sustainable and participatory practices and processes informed from below. This book is resourceful to community media practitioners, community development workers, policy makers and researchers interested in ICTs for community development. 224 pp. Englisch.
