Reviews

Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

Excerpt from Adjustable Book Shelving for Libraries HE past ten or more years form an era of unparalleled activity in the formation of Libraries, their methods of keeping records, ways of classification, and in useful devices for shelving, all of which have made the Library most beneficial to the general public as well as to the special classes.
