

ASTM Volume 04.03 Road and Paving Materials; Vehicle-Pavement Systems

By ASTM

ASTM, 2012. Paperback. Book Condition: New. Trade Paperback. New. Clean, tight and unmarked. Specifications, tests, and practices examine the properties of various road and paving materials and explain how to measure their characteristics. These standards address aggregates, bituminous mixtures, bridges, bridge decks, and structures. They also cover highway traffic materials, such as retroreflective sheeting and pavement markers. Volume 04.03 also covers vehicle-pavement systems, including field methods for measurement of tire pavement friction, measurement and control of roughness in construction and rehabilitation of pavements, surface characteristics related to tire pavement slip resistance, tire and slider characteristics, traffic monitoring, and vehicle roadside communication.

Reviews

It is easy in read through easier to fully grasp. it had been writtern very completely and useful. I am pleased to let you know that here is the greatest book we have read during my personal life and could be he very best book for possibly.

-- Miss Marge Jerde

It is really an remarkable publication i actually have possibly study. It usually is not going to cost excessive. Its been written in an exceedingly basic way and is particularly only right after i finished reading this publication through which basically transformed me, affect the way i think.
