AN INVESTIGATION INTO THE MORTALITY RATES OF THE CITY OF NEW YORK (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Investigation Into the Mortality Rates of the City of New York Including that of 1900, there have been made twelve enumerations of the people of the United States. Much data and valuable information have been gathered regarding the population and deaths, but we have thus far contented ourselves with mere guesses as to the possible trend of the death rates. The vital statistics of no period have been crystalized into a mortality table. It is unfortunate that such is the case, but it is to be hoped that the Census Bureau, which has been lately made a permanent institution, will in the near future set before us a table describing the mortality rates of our people at the beginning of this, the twentieth, century. I should indeed be pleased to have the honor of constructing the American Table No. 1, but such a task is far too great for the time at my disposal. I have determined, however, to lay before the Society an investigation into the mortality rates of some community large enough to give an average, and for this purpose have chosen that of the City of New York, whose vital statistics are near at hand.
