Oxford University Press, United Kingdom, 2006. Paperback. Condition: New. Language: English . Brand New Book. Existentialism was one of the leading philosophical movements of the twentieth century. Focusing on its seven leading figures, Sartre, Nietzsche, Heidegger, Kierkegaard, de Beauvoir, Merleau-Ponty and Camus, this Very Short Introduction provides a clear account of the key themes of the movement which emphasized individuality, free will, and personal responsibility in the modern world. Drawing in the movement's varied relationships with the arts, humanism, and politics, this book clarifies the philosophy and original meaning of existentialism - which has tended to be obscured by misappropriation. Placing it in its historical context, Thomas Flynn also highlights how existentialism is still relevant to us today.
