THE AGING AUDITORY SYSTEM

Springer-Verlag Gmbh Nov 2009, 2009. Buch. Condition: Neu. Neuware - This volume is to bring together noted scientists who study presbycusis from the perspective of complementary disciplines, for a review of the current state of knowledge on the aging auditory system. Age-related hearing loss (ARHL) is one of the top three most common chronic health conditions affecting individuals aged 65 years and older. The high prevalence of age-related hearing loss compels audiologists, otolaryngologists, and auditory neuroscientists alike to understand the...

Reviews

This composed book is wonderful. It is really basic but excitement from the fifty percent of the ebook. You wont really feel monotony at at any moment of your own time (that's what catalogues are for regarding if you request me).

-- **Summer Quigley Jr.**

It is fantastic and great. It is actually rally exciting through reading period. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Alva Reichert**

Certainly, this is actually the very best job by any author. it was writtern very flawlessly and beneficial. I found out this publication from my dad and i recommended this ebook to discover.
