

Advanced Applied Mathematics (National Quality Course of higher mathematics supporting materials)

By YAN WEN YONG // KE SHAN JUN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 294 Publisher: Higher Education Pub. Date :2008-08-01 version 1. In order to meet the new century of high-quality professional for the new requirements. the national quality course construction. and the National Mathematical Contest in Modeling Group Commission research project based on the results. we have prepared this vocational mathematics teaching science and engineering. and was included in the general higher education. Eleventh Five-Year national planning materials. This book includes the limit of a function with continuous derivative and its applications with differential. integral and its applications. differential equations. Fourier series and Laplace transform. multi-function calculus. linear algebra and mathematical experiments the initial eight chapters. This material can be used as Vocational and Technical College. College and the general adult college textbooks. mathematical modeling can be used as training courses and math test economic. engineering applications of reference. Contents: Chapter function limit and function of a continuous function and Section II of the series to establish the limits of Section IV function of the limit function limits the infinitesimal operator V Section VI function with infinite continuity of...

Reviews

This written publication is wonderful. It really is loaded with knowledge and wisdom You will not really feel monotony at at any time of your time (that's what catalogues are for relating to if you ask me).

-- **Desmond Becker**

Absolutely essential go through publication. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of the time (that's what catalogues are for regarding if you ask me).

-- **Ambrose Thompson II**
