Springer, Netherlands, 2012. Paperback. Book Condition: New. 297 x 210 mm. Language: English Brand New Book ***** Print on Demand *****.This volume contains most of the invited and contributed papers presented at the Conference on Robustness of Statistical Methods and Nonparametric Statistics held in the castle of Schwerin, Mai 29 - June 4 1983. This conference was organized by the Mathematical Society of the GDR in cooperation with the Society of Physical and Mathematical Biology of the GDR, the GDR-Region of the International Biometric Society and the Academy of Agricultural Sciences of the GDR. All papers included were thoroughly reviewed by scientist listed under the heading Editorial Collaborations*. Some contributions, we are sorry to report, were not recommended for publication by the reviewers and do not appear in these proceedings. Dr. Jana Jureckova (Charles University Praha) Prof. Dr. Moti Lal Tiku (McMaster University, Hamilton, Ontario) The aim of the conference was to discuss several aspects of robustness but mainly to present new results regarding the robustness of classical statistical methods especially tests, confidence estimations, and selection procedures, and to compare their performance with nonparametric procedures. Robustness in this sense is understood as intensity against violation of the normal assumption. Softcover reprint of the original 1st ed. 1984.
