OXIDATIVE STRESS AND DIABETES ON NEURONAL FUNCTION AND METABOLISM

Book Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | The neuroprotective role of insulin | In the last two decades insulin signalling and protection in brain has emerged as a novel field of research. Although growing evidence supports the hypothesis that dysfunction of neuronal glucose utilization and metabolism and/or in insulin receptor signal transduction cascade is involved in Alzheimer s disease pathogenesis, the role of insulin on oxidative stress- and diabetes-induced neuronal dysfunction and death has been less investigated. This book, therefore, provides new experimental...

Reviews

This written publication is wonderful. It really is simplified but unexpected situations inside the fifty percent in the pdf. You will not truly feel monotony at at any moment of the time (that's what catalogues are for about in the event you request me).

-- **Dr. Jamar Willms**

This publication will be worth purchasing. It is written in straightforward words and not hard to understand. I am just very happy to explain how here is the best ebook we have read in my own lifestyle and might be the best publication for at any time.

-- **Devante Mante**
