Zondervan. Hardcover. Condition: New. 288 pages. When Luis de Molina died in Madrid in 1600, he had every reason to believe he was about to be anathematized by Pope Clement VIII. The Protestant Reformation was splitting Europe, tribunals of the Inquisition met regularly in a dozen Spanish cities, and the Pope had launched a commission two years earlier to investigate Molinas writings. Molina was eventually vindicated, though the decision came seven years after his death. In the centuries that followed Molina was relegated to relatively minor status in the history of theology until a renaissance of interest in recent years. With implications for topics as wide-ranging as biblical inerrancy, creation and evolution, the relationship between Christianity and world religions, the problem of evil, and quantum indeterminacy, Molinas thought remains as fresh and relevant as ever. Most significantly, perhaps, it continues to offer the possibility of a rapprochement between Calvinism and Arminianism, a view of salvation that fully upholds both Gods predestination and human free will. As the first full-length work ever published on Molina, Kirk MacGregors *Luis de Molina* provides an accessible and insightful introduction for scholars,...
