NONVERBAL REACTIONS TO WOUND MALODOR

Condition: New. Publisher/Verlag: Scholar's Press | Nurse educators use high fidelity simulation to expose nursing students to various wound characteristics. To facilitate students developing skills in managing malodor,nurse educators have designed simulations including olfactory realism. However,little is known about how nursing students react to malodor in simulation. This book reports an observational study using qualitative descriptive methodology to document nursing students nonverbal reactions to malodor in simulation.A coding scheme using the Facial Action Coding System(FACS) was drawn from the literature...

Reviews

The ideal ebook i actually study. It is among the most incredible book we have study. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Boyd Steuber**

A must buy book if you need to adding benefit. Of course, it is actually perform, still an interesting and amazing literature. I am delighted to explain how this is basically the best book i actually have read through during my individual life and may be he best book for at any time.

-- **Jarod Bartoletti**
