

Virtual Power: Using Your PC to Realize the Life of Your Dreams (Paperback)

By Mark Bunting

SIMON SCHUSTER, United States, 2000. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Mark Bunting, presenter of his own television shows on computers in America, combines plain-language explanations and infectious enthusiasm to transform the way people think about their home computers. After all, the Personal Computer is not merely an expensive machine bought for typing letters; it can become the most extraordinary tool because it enables the user to build, fix, or create whatever they will. In VIRTUAL POWER, entrepreneurs will learn how to write business plans, keep abreast of financial news, and chat with colleagues and customers. Students can access accurate, up-to-date information on any subject; hobbyists can hook up with others who share their interests; and people eager to expand their circle of friends can tap into a world of new possibilities. Bunting's user-friendly, accessible guide to maximising potential of computers is sure to become a backlist staple for many seasons to come.

Reviews

Extremely helpful for all class of people. We have read through and that i am confident that i am going to going to read through again again down the road. Its been designed in an exceedingly basic way in fact it is simply following i finished reading this pdf in which in fact altered me, alter the way i think.

-- Noel Stanton

Absolutely one of the best pdf We have ever read. I really could comprehended every little thing using this written e book. I am easily could get a satisfaction of reading a written publication.

-- Dr. Odie Hamill
