HISTOMORPHOMETRIC, HISTOCHEMICAL AND DNA QUANTITATIVE ANALYSIS OF OSCC

Condition: New. Publisher/Verlag: Scholar's Press | The objective of the present study was designed to establish more specific criteria for the degree of differentiation and nuclear DNA histochemical quantitation of OSCC. Morphometric measurements by image analysis computer system and DNA histochemical quantitative analysis were assessed in association with clinicopathological features of OSCC. Two histological grading systems were used; Broders' grading system & Invasive front grading system using four histomorphological features that includes; degree of keratinization, nuclear pleomorphism, pattern of invasion...

Reviews

Just no phrases to spell out. it was writtern very properly and valuable. I am very easily can get a delight of reading a written book.
-- **Eric Macejkovic**

The best ebook i actually study. I have got study and i am certain that i am going to going to study yet again again in the foreseeable future. I found out this ebook from my i and dad suggested this book to find out.
