THE ORIGIN OF ALL FORCES

Lulu.com, United Kingdom, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This is for my most recent work and final revision of The Origin Of All Forces. This book is of some theoretics, ending in a unifications of forces and dimensions, proving that they are made out of each other as a result of condensation and lensing of moving bodies This, describing that every subatomic force, is at some level, an amplification of everything at the simplest level and more dynamically toward the more complex. The point of the book, of course, explaining why and that an atom is a particle of the most basic forces that with space and time, are more and more complex. This, allowing for the dynamics of matter and energy and all other physics to exist through not only relation and quantity, but dynamics, as well. Some inclusions from my other books.
