

The Faith Instinct: How Religion Evolved and Why It Endures

By Nicholas Wade

Tantor Media, Inc, United States, 2009. CD-Audio. Condition: New. Unabridged edition. Language: English . Brand New. For at least the last fifty thousand years, and probably much longer, people have practiced religion. Yet little attention has been given, either by believers or atheists, to the question of whether this universal human behavior might have an evolutionary basis. Did religion evolve, in other words, because it helped people in early societies survive? In this original and controversial book, Nicholas Wade, a longtime reporter for the New York Times s Science section, gathers new evidence showing why religion became so essential in the course of human evolution and how an instinct for faith has been hardwired into human nature. This startling thesis is sure to catch the attention of both believers and nonbelievers. People of faith may not warm to the view that the mind s receptivity to religion has been shaped by evolution. Atheists may not embrace the idea that religious expression evolved because it conferred essential benefits on ancient societies and their successors. As The Faith Instinct argues, however, both groups must address the fact, little understood before now, that religious behavior is an evolved part of human nature. How...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Natalie Abbott

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
