*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

A swift evilness comes over the lands from the north destroying all peoples and places before it. As countries and empires tarry and fall many lose hope. As the first book in The Edge of a Sword series readers are introduced to a world of shrinking magic and growing peril. Elves, humans and half-bloods struggle to live together and to resist the evil armies descending from the north. From a queenly figure as the High Lady of Larentra to a terrified victim of evil men, she desperately hides for fear of her life and her future.
