JESSICA KINGSLEY PUBLISHERS, United Kingdom, 2007. Paperback. Book Condition: New. 229 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****. This engaging and perceptive book fills a significant gap in the market. Whilst there are sound textbooks on the content and application of the law to social work practice, courtroom skills have received more complacent attention and Davis now challenges this robustly. In content the book deals comprehensively and informatively with the role of the social worker in the presentation of evidence and professional self in care proceedings. The strengths of the work are reinforced by the clarity of the author s style and structure, and the authenticity of the illustrative examples. These experiences of the author convey the reader direct to the courtroom and help make the book as readable as a good novel. Reflective questions are provided to help the reader to engage with the most important issues. Throughout her book Davis shows a clear concept of the professional role of the social worker and is empowering of good practice. Furthermore she never wavers from the centrality of the welfare of the child and her book shows sensitivity and commitment as well as informed practicality. This is an excellent and accessible book which gives an informed and practical introduction to courtroom skills to student social workers, but would also be valuable, and attractive in its vibrancy, to refresh the courtroom and evidence-gathering skills of more experienced social workers, including those in practice with clients other than children. I will be recommending this book to law students at level two but will also be recommending this work for the Social Care Library of the Local Authority for use by qualified staff and for training. - Social Policy and Social Work Subject Centre (SWAP) Although...
