Editor Publisher: the China Light Publication Date: 2004-3-1ISBN: 9787501942022 words: Page 2004 -08-01 Edition: Binding: Folio: Product identification: Editor's Choice soy protein food is the most popular food of the 21st century. that in both developed and developing countries are no doubt . This is not only because of the soy protein can be used as a complement of high-quality protein intake. but more importantly. soy protein food with a variety of physiologic function. Because of this. the U.S. Food and Drug Administration (FDA) approved in October 1999. the health certification of soy protein. clearly labeled on food packaging containing soy protein soy protein allows a health care function. The Chinese government to improve the health of the Chinese nation. attaches great importance to the development of the soybean industry. and soybean action plan implemented since 1996. This. along with the arrival of the new century. the soy protein food is bound to a new climax on a global scale and to form a new field of food industry. In order to adapt to the development needs of the soy protein food. we compiled the book of the production and application of soy protein. The book is compiled on the basis of vegetable protein handouts of Dalian Institute of Light Industry Food Science and Engineering undergraduate. graduate thesis and research. This book not only focus on technical theory to explore. but also pay attention to the production of practical applications. content rich and detailed. and available for engineering and technical personnel engaged in the research and...
