Stephanie Blackraven considered herself a normal grad student: BS electrical engineering, MS in systems engineering, MA in archeology, and working towards a doctorate in energy physics, and mystology. So, maybe not normal, normal, but not weird. She discovered that some symbols, when created properly, contained energy. Just a little bit of energy. Working with another grad student, Bruce Richardson, she is trying to decipher the mathematical physics behind the phenomena. Then, someone breaks into her lab to destroy her equipment, four times. A policeman, Joe Bremer, shows up in class asking about her symbols and how they could be used in crime, gang related crime. Then she powers a really big symbol and creates a force field. That s when life starts getting weird. She falls in love with Joe, only to find out he s a werewolf. Stephanie finds herself involved in gang crime, dirty cops, werewolves, murder by symbol, assassination and in the middle of it all, her scary great uncle dies...
