MEDICAL DEVICE REGISTER SET

Sedgwick Press, United States, 2008. Paperback. Book Condition: New. 28th. 282 x 221 mm. Language: English . Brand New Book. This two-volume reference is a directory resource to the North American medical device market. It begins with a keyword index listing device names under each of their component words, allowing readers to find devices even if they don't know the exact wording of the standard name. It then moves to the product directory, which is organized by product or service name and lists every manufacturer of each device or service, along with the medical specialty area to which it is assigned, its five-character Federal Drug Administration code, manufacturer address, and phone number. When available the product directory also includes the product specifications and list price. Beginning in the second volume are the manufacture profiles, which lists companies alphabetically and includes addresses, telephone and fax numbers, Web-site and e-mail addresses, medical-product sales volume, annual revenue, year founded, number of employees, size of sales and marketing staffs, and (for publicly traded companies) stock symbols and the exchange on which the stock is traded. Further information includes methods of product distribution, names of key executives, names of any subsidiaries also listed in the Register, and alphabetical lists of all products supplied by the company. Coming at the end of the second volume are a geographical index and a trade name index. The perfect binding on both volumes is not perfect (needs a bit more glue in some places, and a bit less in others). Annotation 2008 Book News, Inc., Portland, OR).
