

Brazil General Descriptive Data (Classic Reprint)

Filesize: 3.92 MB

Reviews

The publication is fantastic and great. It can be rally exciting throgh reading period of time. I am just very happy to inform you that this is the greatest publication i actually have read in my very own daily life and could be he very best ebook for at any time.
(Prof. Alvis Wuckert)

BRAZIL GENERAL DESCRIPTIVE DATA (CLASSIC REPRINT)**DOWNLOAD**

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Brazil General Descriptive Data Principal Exports: Coffee, cereals, rubber, hides, sugar, manganese ore, cacao, tobacco, herva matte, frozen and chilled meats, preserved meats, etc. Principal Imports: Foodproducts (principally wheat and wheat flour, codfish, fruits and nuts, wines and liquors); chemicals and drugs; iron and steel manufactures (the chief items being fence wire, tin plate in sheets, corrugated iron, cutlery, structural iron, steel rails, rail-way axles and wheels); cotton manufactures (ready made clothing, hosiery and piece goods); leather manufactures (boots and shoes machine belting, trunks and bags); printing paper, etc. The Climate, owing to the country s vast area, is diversified. Extending from 5 degrees north of the equator to the 33rd parallel south, a variety of climatic zones is encountered. Although the geographical equator crosses the northern portion, all of the country lies below the thermal equator (which runs through Central America) and thus occupies a favorable middle position between the line of extreme heat and the cold southern latitudes. Due to the greater part of the country being an elevated plateau, the extensive coast line and the greatest hydrographic system in the world, the solar heat of the tropical portions is greatly modified, sunstrokes are almost unknown, and the climate in the populated districts is surprisingly agreeable. Chief Physical Characteristics: The country may be divided into two large physical regions, that of the east and center being generally high and that in the north and west containing extensive plains and valleys. The central plateau covers about half of the Republic and is from 500 to 1,000 meters (1,600 to 3,200 feet) above sea level. North of this the great Amazon Valley stretches from the...
